

## CHECKLIST:

### INSTALLATION OF THE SMAXTEC SYSTEM SX.2

#### Infrastructure

- **Base Station SX.2**  
see Quickstart-Guide
- **Activation of Base Station**  
serial number to support@smaXtec.com
- **Pay attention to height**  
optimum: 2-2,5 metres (out of reach of cows)
- **Assembly (Mount vertically)**
- **Pay attention to reach**  
Base Station – Bolus: typically 50m  
Base Station – Climate Sensor: up to 100m
- **Avoid construction elements that reduce reach (e.g. steel, concrete)**
- **Don't mount to close to other electronic devices/systems**
- **Activation of Climate Sensor SX.2**  
see Quickstart-Guide

#### Boluses

- **Activation of Classic Bolus SX.2**  
see Quickstart-Guide
- **Ensure that the activation process is completed**  
  
The activation process consists of two steps:
  - Switching on the bolus with the magnet
  - Assigning the bolus to an animal in the software.
- ! *Only if the activation is completed properly, data and alerts will be generated and displayed.*
- **Bolus administration**  
Boluses should be administered the same day

#### smaXtec Software (Messenger & App)

- **smaXtec Messenger**  
web version
  - **Create account**  
on <https://messenger.smaXtec.com>  
use a Chrome or Firefox browser
  - **Create organisation (farm)**  
(e.g. farm name, family name)
  - **Create group**
  - **Add animals to organisation**  
(Bolus activation)
  - **Activation of devices**  
in Messenger – naming of devices according to their position in the barn
  - **Edit notifications**  
(E-mail and/or push notification)
    - Activate notifications in smaXtec web version via [Edit notifications](#)
    - Select the type of notifications and the notification channel (App and/or e-mail)
    - Test notifications to ensure functionality
- When will the first alerts after bolus activation/administration be available?
- Health alerts (rumination & temperature): after 4 days
  - Heat and calving alerts: after 8 days
- **Share Data**  
and assign user roles if desired (e.g. employees, consultants, veterinarian). If they don't have a smaXtec account yet, they will receive an invitation automatically.
  - **smaXtec App**
    - Download for free  
    - Ensure the app is allowed to send notifications (check smartphone settings)
