

smaXtec REPEATER

It is sometimes advisable to use a **smaXtec Repeater** (to cover various areas of the cow shed). It provides an easy-to-use and cost-efficient extension of the smaXtec wireless network and communication with the smaXtec Sensors.

TECHNICAL DETAILS:

- Modell: US-4046 (for North and South America); RX-4046 (for EU and other countries)
- Dimensions: 160 × 90 × 50 mm (L × W × H)
- Dustproof and waterproof plastic casing (IP 66)
- Antenna for communication with smaXtec Sensors (max. distance 10–30 m/32–98 ft)
- Antenna for communication with smaXtec Base Station/Repeater (max. distance between read-out stations 100 m/328 ft)
- Supplied mains adapter: 100–240V, 2 A
- Easy to mount on a wall or wooden post etc.
